

Open your doors...

It's What's Inside that Counts

This simple truth applies not only to people but to products as well.

Mirage's internal moving parts are factory lubricated with a long lasting, temperature resistant grease to allow smooth movement while preventing corrosion. Its central shaft rotates in a silicone brass bushing allowing it to withstand hundreds of thousands of cycles without wearing crucial parts.

Additionally, our guides (plastic parts that guide the screen across the door or window tracks) have been formed from a space aged plastic that is highly durable and contains its own lubricant, allowing it to slide smoothly with minimal wear for years to come.

To ensure that all these parts stand the test of time Mirage routinely tests its retractable screens through 250,000 operational cycles. What does this mean in the real world? Based on using the door 10 times per day, all year long, this would be the equivalent of nearly 69 years of use.

Like any product, maintenance and care are required on the part of the homeowner. We encourage you to view our care and maintenance recommendations which are found with our warranty at www.miragescreensystems.com.

Our goal is to make the best retractable screen with the longest trouble free life possible.

- Available with patented HydraGlide Slow Close Technology to prevent accidental slams.
- Mirage Screens are custom fit to your door.

Your Local Mirage Dealer

Mirage Retractable Screens are sold, installed and serviced by locally owned and operated businesses in your community. You can be assured of a quality installation from a dealer with a proven record and roots in your community.

Cooling & Ventilation

The Mirage Screen will allow you to naturally cool and ventilate your home. Enjoy the comfort of fresh air during the cool of the day and reduce the cost and need for air conditioning.

Take additional advantage of cross ventilation in your home by installing a Mirage Screen on both your front and back doors.

Convenience

Unlike traditional swinging screen doors, the Mirage Retractable Screen is only across your door opening when you need it to be. Eliminate the inconvenience of opening and closing a screen you only use seasonally.

Additionally, because Mirage Screens store out of sight when not in use, they do not detract from the appearance and beauty of your entry door.

Colors

Mirage Screens feature the latest architectural colors in decorating trends. We use the highest performing powder coating finishes to make sure your screen looks good for years to come.

Standard Colors

Over 25 Optional Designer Colors

Optional Wood Grain Finishes

Note: Colors may not appear exactly as shown
