Fentrim IS 2

Single-sided high-performance adhesive tape for perfectly sealing window and door frame in solid structures on the exterior

The black colored, single-sided high-performance adhesive tape Fentrim IS 2 is the optimal solution for permanent airtight and driving-rain proof sealing of window and door frames in solid construction on the exterior. According to the rule "less permeable on the inside than on the outside", the white colored window joint tape Fentrim IS 20 perfectly supplements Fentrim IS 2.

Extremely high adhesive strength on every surface

Easy to apply, immediately 100% tight 15 mm pre-folded, without backing strip

Fastest bonding to window frames bonding from - 10°C / 14°F

Fast and tight window installation all year-round

Technical Data Sheet

https://americas.siga.swiss/application/files/5615/1939/0622/Fentrim_IS_2_Technical_Data_Sheet.pdf

Fentrim IS 20

High performance adhesive tape for airtight of window frames and other right-angle connections on the Interior

Fentrim IS 20 is the optimal solution for permanent airtight sealing of window frames and other right-angle connections on the building interior.

immediate seal over entire surface area

pre-folded at 5/8" with exposed adhesive surface

protruding backing strip is tear-proof and easy to remove

Technical Data Sheet

Fentrim F 9''

Highly formable, semi-permeable, primer-less and abrasion-resistant tape for window installation or other flashing conditions

The black, fleece-backed flashing tape Fentrim F is the ideal flashing solution for jobsite conditions where mixed substrates are present. Primer is not required, even for masonry, and the aggressive acrylic adhesive bonds in the most difficult temperature conditions. A tear-proof, split-release liner allows fast and error-free results...every time.

Masonry-compatible without primer

Sticks tenaciously in cold temperatures

Siliconized, split release liner saves time

Also available in 4'', 6'' et 12'' width

Technical Data Sheet

Rissan 60

Rissan is a reinforced, semi-transparent PE sealing tape, with an acrylic pressure-sensitive adhesive. From sealing circular penetrations such as pipes or cables, to square electrical boxes and timbers, to sheet membrane overlaps, its versatility makes Rissan an essential tool for every interior air-sealing specialist. Superior adhesion to OSB and other wood-based panel joints.

Extremely strong adhesion to wood, metal, foam and plastics

Smooth carrier material to irregular substrates

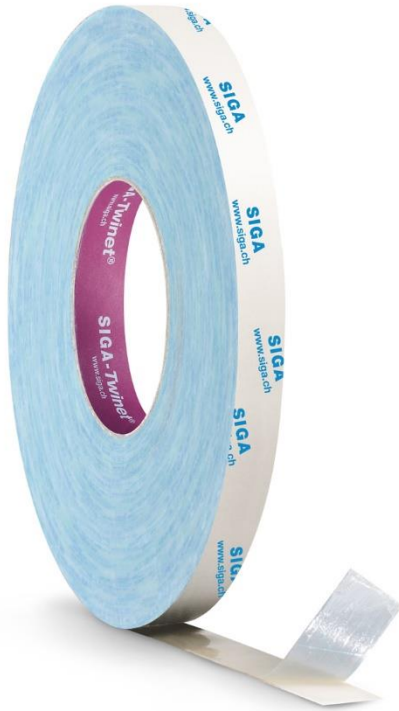

High elasticity absorbs structural movement

Technical Data Sheet

https://americas.siga.swiss/application/files/5915/1939/0475/Rissan_Technical_Data_Sheet.pdf

Twinet

Double-sided mounting tape as a mounting aid for vapor control layers on panels goods

High performance tape for puncture-free mounting of sheet membranes to structural substrates on the inside

Twinet is a strip of pressure-sensitive, acrylic adhesive reinforced with an embedded fiber-strand carrier layer and a tear-proof plastic backing.

Use Twinet as a mounting aid for vapor control layers (VCL) to hard surface framing members and panel goods. Eliminates leakage points common to mechanical fasteners. Optimal for use with metal studs, where hand-staples are ineffective. Not for permanent structural mounting.

Extremely adhesive on both sides

Protective coating on each roll face, prevents adhesion of jobsite debris

Plastic backing is tear-proof, even in tight spaces

Technical Data Sheet

https://americas.siga.swiss/application/files/7415/1939/0443/Twinet_Technical_Data_Sheet.pdf

Wigluv 60

Facade membrane

White semi-permeable, UV stable and weatherproof high performance tape for overlaps and penetrations

The white, single-sided high-performance adhesive tape Wigluv 60 is the optimum solution for permanently sealing breathable membranes and facade membranes, for overlaps, penetrations and bonds on the exterior.

High adhesive strength, in both hot and cold temperatures

Semi-permeable (1.7 perms) material allows damp substrates to dry out

Split release paper on rolls 4" and wider makes application fast and accurate

Technical Data Sheet
